# Accessing Go Bears WiFi on Campus

All Athens State University students, faculty, staff, and adjunct faculty can connect to the university-provided wireless network, Go Bears, when on campus. Users will be prompted to authenticate the Go Bears network with an Athens State University username and password.

Computers

Windows OS

1. Navigate to your device's Network & Internet/Wi-Fi settings. This will show the available Wi-Fi networks.

2. On the list of available networks, select Go Bears, choose to connect automatically, and click Connect.

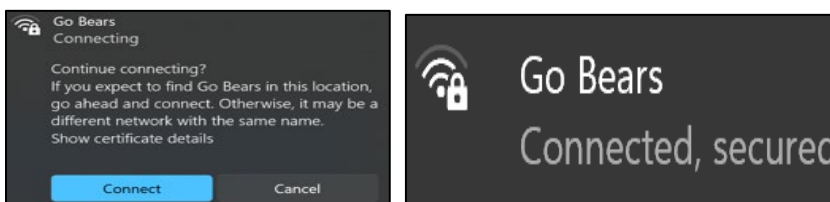

3. Enter your Athens State University username and password.
   Username: Enter the first part of your Athens State University email address, everything before @my.athens.edu or @athens.edu
   Example: If your email address is John.Doe@athens.edu, the username is John.Doe.

   Password: Enter your MyAthens (Canvas) password.

4. Click Connect again to establish connection.

MacOS

1. Navigate to your device's Network/Wi-Fi settings.
2. On the list of available networks, select Go Bears, and click Connect.

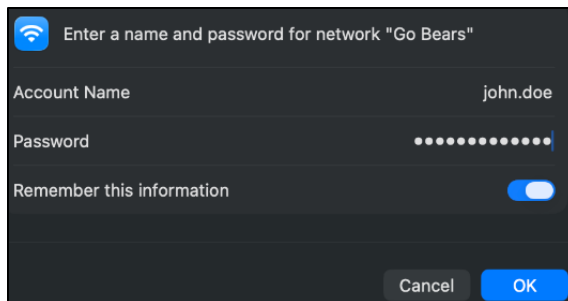

3. Enter your Athens State University username and password. Toggle remember this information.
   *Account Name:* Enter the first part of your Athens State University email address, everything before @my.athens.edu or @athens.edu
   *Example:* If your email address is John.Doe@athens.edu, the username is John.Doe.

   Password: Enter your MyAthens (Canvas) password.

4. Choose to verify certificate by clicking Continue.

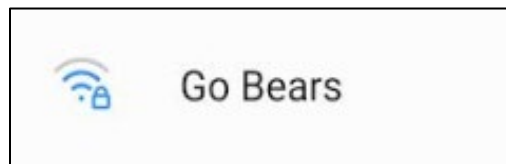

5. Your MacOS device is now connected.

Mobile Devices

Android

1. Navigate to your device's Settings and click Connections.

2. In the Connections menu, select Wi-Fi, and choose Go Bears.

3. Enter your Athens State University username and password.
   Identity: Enter the first part of your Athens State University email address, everything before @my.athens.edu or @athens.edu
   Example: If your email address is John.Doe@athens.edu, the username is John.Doe.

   Password: Enter your MyAthens (Canvas) password.

4. Under CA certificate, choose "Don't validate". Toggle on auto reconnect and click Connect to establish connection.
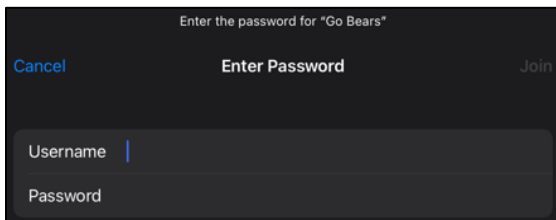

iOS

1. Open your device's Settings, and open Wi-Fi.
2. Choose Go Bears from the list of available networks.

3. Enter your Athens State University username and password and click Join.
   Username: Enter the first part of your Athens State University email address, everything before @my.athens.edu or @athens.edu
   Example: If your email address is John.Doe@athens.edu, the username is John.Doe.

   Password: Enter your MyAthens (Canvas) password.

4. You may see a message indicating the certificate cannot be trusted. Disregard this message and choose Trust.

5. Your connection is established.
