

Degree Works Responsive Dashboard Overview for Students

Version 5.0.7.1

WHAT IS THE RESPONSIVE DASHBOARD?

• The Degree Works Responsive Dashboard is a new tool designed to modernize the Degree Works experience while making it mobile friendly and ADA compliant. A major benefit is that the Responsive Dashboard adapts to screen size making the information easily visible from a mobile device, tablet, laptop or desktop computer.

• The Plans feature in the Responsive Dashboard offers a more intuitive interface for viewing a MAP (My Academic Plan).

DEGREE PROGRESS INDICATORS

In the classic version of Degree Works, students could see their percentage of progress. In the Responsive Dashboard, the percentage bar has now been removed.

Each section will now have an **indicator** that specifies if that area is Complete or Incomplete. This will also be denoted with a **green checkmark** next to the completed course.

- The What-If Feature is located directly under the Student Header block
- The What-If allows students and advisors to simulate how a students audit will appear if they
 were to change their major, or add an additional credential, such as a Minor, Concentration,
 or Certificate.
